

## Journal of Mathematical Analysis and Applications

### EDITORS

STEVEN G. KRANTZ

*Washington University  
in St. Louis*

Real and complex analysis  
Partial differential equations  
Fax: 314 935 6839  
E-mail: [sk@math.wustl.edu](mailto:sk@math.wustl.edu)

GOONG CHEN

*Texas A&M University\**

Applied and computational PDE's  
Vibration control, nonlinear and  
chaotic systems  
Engineering mechanics, molecular  
quantum mechanics and  
quantum computing  
Fax: 979 862 4190  
E-mail: [gchen@math.tamu.edu](mailto:gchen@math.tamu.edu)

RICHARD M. ARON

*Kent State University\**

Functional analysis  
Infinite-dimensional  
function theory  
Fax: 330 672 2209  
E-mail: [aron@math.kent.edu](mailto:aron@math.kent.edu)

Founding Editor: RICHARD BELLMAN

Editor 1985–1991: R.P. BOAS

Honorary Editors: GEORGE LEITMANN   WILLIAM F. AMES

### EDITORIAL OFFICE

*Journal of Mathematical Analysis and Applications*

525 B Street, Suite 1800, San Diego, California 92101-4495

E-mail: [jmaa@elsevier.com](mailto:jmaa@elsevier.com)

---

### DIVISION EDITORS

RAUL CURTO

*University of Iowa\**

Single and multivariable operator theory  
 $C^*$ -algebras  
Classical theory of moments

HÉLÈNE FRANKOWSKA

*CNRS and Université Pierre et Marie Curie (Paris 6)*

Set-valued, nonsmooth, convex and nonlinear analysis  
Viability theory  
Differential inclusions, control problems, and  
differential games with state constraints  
Regulation of systems evolving under  
nonstochastic uncertainty

MARIO MILMAN

*Florida Atlantic University\**

Harmonic analysis  
Function spaces

PAUL SACKS

*Iowa State University\**

Inverse problems  
Nonlinear parabolic partial differential equations

ULRICH STADTMUELLER

*Abteilung Mathematik III*

*University of Ulm*

Probability  
Statistics  
Classical analysis

T. WITELSKI

*Duke University\**

Partial differential equations  
Fluid mechanics
